CauseClass

The Future of Sustainability Education

CauseClass is a series of **FREE online courses** with lessons that generate real-world applications for stewardship and sustainability.

**+ Built for +
Educators**

Standards-based virtual resources, including interactive lessons and mini documentaries produced in South Florida, that **entertain to educate.**

Home learning that earns students community service hours.

4 Online Courses: The Climate Cure Series

Impact Outcomes:

-  Encouraging responsible use of natural resources
-  Cultivating a stewardship mindset
-  Building conscious consumer habits
-  Inspiring action and the pursuit of purpose

GRADES 6 - 8 | Eco Action Camp

Through interactive lessons, inspiring speakers, and engaging field trips, our campers will learn about global issues by taking local action to become the future sustainability leaders of tomorrow

GRADES 6 - 12 | Monthly Service

Every month, we partner with local impact leaders to host environmental service opportunities and inspiring panel discussions at our HQ.

GRADES 9 - 12 | Leadership Training

During this three-month training, high school students will be mentored by local sustainability leaders to learn how to affect positive change in their communities through different impact pathways.
